GENERATOR SET WARRANTY & WARRANTY SERVICE POLICY

Limited Warranty on Advanced Dynamo Industries Generators

Advanced Dynamo Industries, Inc. (ADyI) warrants to the end user that each new ADyI generator set is free from defects in materials and workmanship for a period of three hundred and sixty-five (365) calendar days from the date of delivery to the end user or 1,000 hours of operation, whichever comes first. The end user **must complete and return the enclosed ADyI Warranty Registration Card to ADyI within 30 days of receipt**, and keep a copy of the completed card for future reference.

This limited warranty is nontransferable, applies only to the first end user of the generator and is subject to the following conditions and limitations. Completion of regularly scheduled maintenance according to the ADyI Maintenance Guide is required and must be documented by a written record or other service log. The generator must be operated under normal conditions for its intended purpose in accordance with ADyI operational instructions and technical requirements. Improper and/or lack of maintenance, unauthorized adjustment and/or modification(s) of the generator, or operation of the generator in a manner not authorized or intended by ADyI will automatically void the warranty. ADyI is under no obligation, by law or otherwise, to provide any concessions, including repairs, pro-rates, or product replacement after the expiration of this warranty.

ADyI must be contacted prior to the initiation of any warranty based repair by a third party shop or other repair center seeking reimbursement for parts and/or labor. After completing an evaluation of the suggested repairs, ADyI will authorize the warranty claim and issue a capped purchase to the third party repair center. Currently, ADyI has a labor flat-rate warranty reimbursement of up to \$85/Hr., not to exceed \$340. Please direct the third party repair center to contact ADyI before beginning the diagnostic phase, prior to any work, as ADyI will assist the third party repair center in diagnosing any problem(s) correctly.

ADyI charges COD for all repair parts sent out to a third party repair center. ADyI will then issue a credit for the defective parts after they are returned to ADyI for warranty evaluation and determined to be defective. The determination of whether a part is defective or not is solely at ADyI's judgment and discretion. **ADyI will not reimburse any unauthorized repairs** (unauthorized repairs are when no ADyI Purchase Order is issued).

Warranty Repair Labor Flat Rate Schedule

ADyI's flat-rate warranty reimbursement for labor = \$85/Hr., not to exceed \$340.00.
